

SUSHIL CHOUDHARY

Team Lead · React Native & React JS Developer

+91 7340321143 sushilchoudhary9871@gmail.com [LinkedIn](#) [GitHub](#) Jaipur, India

SKILLS & TOOLS

MOBILE

React Native iOS & Android
App Store & Play Store
React Navigation NativeBase
BLE Manager

FRONTEND

ReactJS Next.js TypeScript
Redux Toolkit Zustand
Micro Frontends Webpack MF

BACKEND

NodeJS NestJS REST APIs
gRPC JWT / OAuth 2.0
WebSocket

UI / STYLING

Material UI Tailwind CSS
Formik / Yup React Hook Form

DEVOPS & TOOLS

Docker Kubernetes GitLab CI/CD
SonarQube JIRA VS Code

LEADERSHIP

Team Leadership Project Ownership
Agile / Scrum AI-Augmented Dev

WORK EXPERIENCE

Sarvika Technologies

Jaipur, India | Sep 2020 – Present (5+ years)

Team Lead Current

Apr 2026 – Present

- Leading & mentoring a team of 7+ engineers — code reviews, sprint planning, architecture decisions, and delivery.
- Driving adoption of Webpack Module Federation microfrontends across multiple enterprise platforms for independent deployments.
- Integrated AI tools (including Claude) into team workflow — accelerating code generation, reviews, and problem solving.
- Established component libraries, ESLint configs, Husky hooks, and CI/CD pipelines across all active projects.

Senior Software Engineer

Jan 2025 – Apr 2026

- Built and shipped cross-platform React Native apps to iOS App Store & Google Play Store — BLE device integration, real-time health tracking, AI-powered features.
- Led frontend architecture for large-scale Ed-Tech SIS + LMS microfrontend platforms serving thousands of users.
- Independently delivered a full Healthcare RPM web platform — 200+ components, 15+ modules, HIPAA-aware design.
- Introduced performance patterns: code splitting, lazy loading, Redux async injection — measurably improving load times.

Software Engineer

Dec 2021 – Jan 2025

- Built complex feature modules end-to-end — full ownership of multi-step workflows, data tables, and form systems.
- Worked across React Native (mobile) and React JS (web) simultaneously on the RPM Healthcare platform.
- Introduced TypeScript, Formik/Yup, and React Hook Form across the team for type-safety and consistent form handling.

Web Developer

Jun 2021 – Dec 2021

- Developed reusable UI components for the Online Tutoring Platform and Enterprise Workflow Platform.
- Gained deep experience in Redux state management, REST API integration, and multi-role authentication flows.

Web Developer Trainee

Dec 2020 – Jun 2021

- Ramped up on the full React ecosystem — hooks, routing, state management, and production-grade coding standards.
- Contributed to real client projects from day one, building screens under senior guidance.

React Intern

Sep 2020 – Dec 2020

- Joined fresh out of a History degree — self-taught React, learned professional development workflows.

KEY PROJECTS **Student Information System (SIS)** Led Independently

Enterprise ed-tech microfrontend platform — Admin Portal (28+ modules, multi-tenant RBAC, WebSocket), Student & Parent Portal (multi-tenant routing, multi-gateway payments, LMS integration), and AI Assessment & Grading Module.

React 18 TypeScript Redux MUI Tailwind Webpack MFE Docker Kubernetes

 Learning Management System (LMS) Led Independently

LMS Admin Portal (14 modules, 683+ JS files, AI content generation, SIS sync) and LMS Student Portal (quizzes, e-portfolio, gamification, real-time messaging) — both as Webpack MFE microfrontends.

React 18 TypeScript Redux MUI v7 Webpack MFE WebSocket CKEditor 5 Kubernetes

 Healthcare Remote Monitoring (RPM) Led Independently

Healthcare RPM Web Platform (200+ components, Kanban CRM, rules engine, RBAC), Patient Mobile App (React Native, BLE medical device integration, Razorpay), and Provider Mobile App (React Native 0.81, deployed to App Store & Play Store).

React 18 React Native Redux MUI Recharts BLE Manager Firebase iOS Android

 Enterprise Workflow Platform (Clowre) Team Contribution

6 independently deployable microfrontend modules: Form Builder, Ticket Management, Certificate Manager, Gatekeeper, Workflow Manager, and Shell App.

React Redux MUI v4/v5 Webpack MFE Formik Kubernetes

 Online Tutoring Platform Team Contribution

Multi-role SaaS tutoring platform — real-time messaging via Socket.IO, timezone-aware scheduling, integrated payments & payout system, Dockerized multi-environment deployments.

React 16 Redux Socket.IO Material UI Recharts Docker Kubernetes

EDUCATION**B.A. in History & Political Science**

2020 – 2023

Maharshi Dayanand Saraswati University, Ajmer

Non-traditional path to tech — studying history sharpened systems thinking, root-cause analysis, and storytelling skills that make for a better engineer and leader.
